SMALLPOX SITUATION.

Government Refuses to Stand All
Expenses and Middleborough
Can't Do It.

Middleborough, Ky., March 16.—
Passed Assistant Surgeon Werten-
baker in the city a visiting instruc-
tion from the authorities in Washing-
ton. He has wired Surgeon General
Wyman the depressed circumstances
under which the municipal govern-
ment is laboring, and has recom-
mended that a relief train be sent
at once.

Wyman replies that the govern-
ment does not feel called upon to
bear all the expense of stamping out
the epidemic, and requests that the
municipality or the citizens render all
assistance possible.

He considers the abrupt withdrawal
of the board as unfortunate.
The city is absolutely bankrupt.
Citizens are equally embarrassed. Re-
lief must come shortly, as the unfor-
tunate patients are in very straight-
ened circumstances.

LEGISLATURE ADJOURNED.

Forty-Three Bills Become Laws
and Forty Left

On the Governor's Table, a Ma-

Frankfort, March 16.—The legis-
lature adjourned sine die last night.
Forty-three bills have become laws.
There are yet on the governor's table
forty bills and it is very probable
that a majority of these will be vetoed.
During the session the governor vetoed
eleven bills. Eight of these were
passed over the veto. The Bronston
prison bill, the Goebel election bill,
the bills changing third and eighth
congressional districts and third and
seventh appellate districts, the bill for
the benefit of the widow of the Chief
Justice Bennett and the bill to compel

SPAIN NOW MAKES ANOTHER DEMAND.

Said to Have Requested That All American
War Ships Leave Cuba and Dry Tortugas.

WILL NOT BE GRANTED.

Spain Attempting to Buy War
Ships in London Today. She
Has Failed to Get
A War Loan.

WAR PREPARATIONS CONTINUE.

Washington, March 16.—The sit-
uation today shows but little change.
The United States is making war
preparations with no cessation. And
all signs point to actual war, except
the fighting.

Spain is said to have requested the
withdrawal of American war ships
from Cuban waters and from Tortu-
gas. The President will of course
refuse, and Spain must recede from
her demand or declare war.

It is positively learned that Spain
has tried to get a war loan in Lon-
don, but has failed. Spain is today
negotiating for war ships in London.
But Spanish credit is poor and she
can buy no ships but with the cash.

A prominent official who is a friend
of the President said today there
would be no war, because Spain
would pay the indemnity for the
blowing up of the Maine. But this
is but a rumor, as the administration
cannot recede from its policy of free-
ing the Cubans, and this is the one
demand that Spain will not accede to.
The board of inquiry has left Ha-
vana for Key West where it is hold-
ing its court today. It is not known
when its report will be ready.

London, March 16.—L. & N.
railroad is said to be getting trains
ready this afternoon to rush troops
through from Virginia and eastern
forts to Atlanta.

THE BIG WAR.

French Fleet said to Be Pushing
Toward the East—Does It
Mean Another War?

Washington, March 16.—The
startling news was received here to-
day that a big French fleet is con-
centrating in Chinese waters to aid
Russia in a big demonstration against
Japan and England.

This, if true, means that another
war is brewing, and a war that may
change the map of Asia and Europe.

Does It Mean Recognition?

Washington, March 16.—The
appearance of Senator Chesnut at the
Vice President's reception Monday
night has set the diplomatic corps on
the quiver. The foreign minister
has more store on his reception of the
Cuban than on anything which has
transpired. They say that the accep-
tance of Chesnut, especially by the
Vice President, precludes his accep-
tance officially. They look upon
Chesnut's presence last night as an
act most unusual in the diplomatic
world, and say in any other coun-
try would be equivalent to a recogni-
tion of the island, that the invitation
could not have been sent in a hap-
hazard way, but after careful con-
sideration in line with a fully outlin-
ed policy.

LEGISLATURE ADJOURNED.

Forty-Three Bills Become Laws
and Forty Left

On the Governor's Table, a Ma-
jority of Which Will Prob-

Frankfort, March 16.—The legis-
lature adjourned sine die last night.
Forty-three bills have become laws.

ANOTHER SPECIAL DAY.

Noah's Ark Will Repeat Its Splen-
did Offers on Saturday.

Owing to the fact that a great
many railroad people could not par-
ticipate in the great Birthday Sale
at Noah's Ark yesterday and today,
they will repeat the sale on Saturday
next, March 19, when everything
will be sold at the same prices as on
the former special days.

Three large cases of china have
just been received this afternoon,
consisting of new spring goods order-
ed in New York this spring, which
will put on sale Saturday.

SCHOOL BOARD.

There Will Be a Meeting of Im-
portance Tonight.

A Plan to Complete the New
School Building to Be
Considered.

The board of education meets to-
night to take action relative to the
completion of the new \$30,000 school
building on West Broadway. \$10,000
having already been expended on the
foundation work, and it will require
two years more to pay for it—\$10,-
000 out of this year's levy and \$10,-
000 out of next year's levy.

The desire of the board is to com-
plete the building this year, and finish
paying for it next year. To this
end tonight's meeting will be held.
The desire of the board is to have
the building finished at once, the
contractor to receive one-half this
year and wait another year for the
remainder. The entire board seems
to favor this plan, which City At-
torney Lightfoot pronounces legal.
The only difficulty, if any, would be to
find a contractor who will agree to the
terms.

Another plan was suggested, that
of borrowing the requisite amount of
money. The members, however,
against becoming responsible person-
ally, against signing any note.

The other plan, therefore, that of
having the building finished at once,
and to finish paying for it next year,
will doubtless be adopted.

BASE BALL ASSOCIATION

Came to Life Again Today.
Held a Meeting.

Prospects of Its Becoming a Mem-
ber of Southern
League.

The Paducah Baseball Association
has come to life. Yesterday after-
noon a letter was received from the
secretary of the Southern league,
making terms to secure Paducah and
Cairo. The other cities are Memphis,
Little Rock, Atlanta, Nashville and
Hot Springs.

The association was in conference
this morning, but did nothing defi-
nite. It has made a proposition to
the Paducah Street Railway company
that the latter has not yet reported on.
The street car company does not
own the baseball park, and there is
some talk, unless it comes to terms,
of moving the park inside the city.

The association expected the legis-
lature to pass a bill exempting Mc-
Cracken county from the Sunday
baseball law, which would have been
a great advantage, but no such bill,
to the great disappointment of the
members, was introduced.

By tomorrow, it is thought, it will
be known whether or not Paducah
will have a club this year.

A member of the association stated
to a reporter today that he regarded
the prospects as favorable.

AN EARLY SPRING.

Peach Trees Will Be in Bloom By
Tomorrow.

This is considered by many the
earliest spring known in several years.
All the trees are budding, and by to-
morrow the peach trees will be in
bloom. The only fear now is of a
cold snap to kill the fruit.

Mr. Nick Grier's Funeral.

o'clock from the St. Francis de Sales

It was one of the largest fun-
erals witnessed here in some time.

TWENTY LIVES BELIEVED TO BE LOST.

Terrible Explosion in a Chicago Music House.
Employees Penned in the Raging Flames.

JUMPED TO THEIR DEATH.

The Frantic Employees Sought
to Escape the Flames by
Jumping to the
Pavement.

TWENTY BODIES YET MISSING.

Chicago, March 16.—It is believed
that twenty lives have been lost in a
music store fire in this city this morn-
ing. The fire was caused by an ex-
plosion in a music store located op-
posite the Wellington hotel. The
building was full of employees and
customers when the terrible accident
occurred. Many of the employees
were killed by jumping from the up-
per stories, for the flames almost im-
mediately cut off all means of es-
cape from the upper part of the build-
ing. Many must have been killed
also by the explosion itself. It is
thought that at least twenty bodies
are buried in the ruins. In addition
to the list of killed, which it is be-
lieved will reach fully twenty, many
persons were seriously injured. The
property loss is very heavy. The ex-
plosion was supposed to be caused by
the heating apparatus. Of the in-
jured it is feared that fully twenty
are fatally wounded.

MERCHANTS

Must Subscribe, or There Will
Be No Races and Fair
This Year.

The Association Has Been Barely
Self-Sustaining in the Past.
Meeting Tomorrow.

The Paducah Fair and Exposition
association will meet Friday to out-
line its work for the year. It has
yet decided on no plan of action, and
will have no mid-summer races, from
all reports, unless the merchants and
others benefitted by the races lend
some assistance.

The association has always been
self-sustaining, but has made barely
enough to float the original indebted-
ness, the interest on which has had
to be paid by the stockholders.

It is probable that committees will
be appointed to solicit subscriptions,
and a director stated this morning
\$1000 would have to be subscribed
to insure the regular summer races.

QUIET WEDDING.

Occurred This Morning at 11
O'clock at the St.
Nicholas.

Mr. Luther Elder and Miss Ma-
rie Vick Married By
Rev. Chappell.

Mr. Luther Elder, of Kelsey, Ky.,
and Miss Marie Vick, of Dubuque,
Ky., arrived in the city this morning
on the 10:15 train, and repaired to
the St. Nicholas hotel.

Mr. Elder went to the court house
and procured a marriage license.
Rev. M. E. Chappell met the couple
at the hotel, and about 11 o'clock
spoke the words that made them man
and wife.

The wedding was not an elope-
ment, the couple simply desiring to
come here and have a quiet marriage.
They are both prominent young peo-
ple in their respective homes.

COUNCIL CAUCUS.

Tax Collector to Be Nominated
Friday Night.

The Race Said to Be Between
Four of the Can-
didates.

The council caucus Friday night
to nominate a candidate for tax col-
lector of Paducah, is stirring the
committee-men as well as the candi-
dates.

The names of the candidates have
heretofore been published, and from
the most reliable information the race
will be between Messrs. George Rob-
ertson, Fendall Barnett, H. F. Lyon
and Joe Yeiser.

It is said that the candidates now
have about equal strength, which
will doubtless make the caucus all the
more lively.

Five Steamer Sold.

Cairo, Ill., March 16.—Deputy
United States Marshal Saup, yester-
day sold the Anchor-line steamer

City of St. Louis to Capt. W. H.
Thorwagen, of St. Louis, for \$19,050.
Capt. Thorwagen bought the boat
for the Columbia Extension company
to take the place of the steamer
Grand Republic, which burned last
Sunday at St. Louis.

Mills to Be Enlarged.
Mayfield, Ky., March 16.—The
Mayfield Woolen Mills are preparing
to make extensive additions to their
plant. When completed the mills
will occupy nearly half a square.
The stock room will extend the entire
length of the square and the weaving
and sewing rooms will be doubled in
size. Sixty new looms and 100 new
machines will be added, and the mill
will begin the manufacture of suits of
clothes. They have only made pants
up to the present time.

LIVELY TIME IN HICKMAN.

The Town Marshal Catches Joe-
ple Peddling Whisky There.

Five Arrested, and One
Made His Escape.

One Man Had 25 Gallons—A
Hotel Man Is Chased to the
River and Crossed to
Missouri.

Witnesses who arrived this morn-
ing from Hickman to attend the trial
in the U. S. court of Tom Winston,
the negro "boot-leg," report a lively
time in Hickman yesterday.

Six persons were warranted on
charges of selling liquor without
licenses. Town Marshal Tom Dillon
started out to arrest them.

Harry Freeman, a negro, was
caught. He had twenty-five gallons
which he had brought to town to re-
tail. Charles Douglas, white, prop-
rietor of the Commercial hotel at
Hickman, was included, but he was
warned in time to get in a shift and
start across to the Missouri shore.
The town marshal shouted to the
cousman to row the fugitive back, but
he kept on, and landed his charge
safe in Missouri. The others arrest-
ed were Dick Brown, Cal Williams,
and a woman named Cis Haynes. The
latter had been suspected for some
time.

According to reports she dispensed
the cup that cheers and sometimes
does more than that, from behind a
canvas stretched across the back
porch to obscure the view of the vigi-
lant town marshal.

He used to get up on the hill and
look almost down her chimney, but
he could never discover any incrim-
inating evidence worse than seeing the
ladies and customers coming out
wiping their lips.

Most of the accused executed bond
to answer for the defense.

M'PHERSON'S
DRUG STORE

Extract of an editorial taken from the Western Review of Commerce, published at
Chicago, Ill., dated November 19 last:

A Compliment to Paducah...

When we recommend an article or prod-
uct it is accepted without question that we
have thoroughly satisfied ourselves, by
severe tests, of its value and worth, and
that it is all that it may claim to be. The
foregoing is sufficient to illustrate our pos-
ition, and to justify what we may say when
we make specific recommendation and
extend our editorial commendations to the

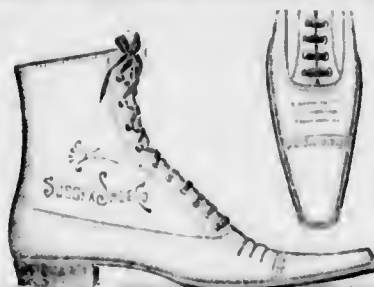

Brook Hill Garrard county, Kentucky, whiskey, distilled by Friedman, Keiler & Co., of
Paducah, Ky. Both dealers and consumers can rely upon the character of the products of
this firm, both in general and in particular, and we have no hesitancy in recommending them
to our readers. Although we have no personal interest in the matter whatsoever, we believe
in the policy, "merit to whom merit is due." In the light of too frequent adulterations and
preparations of liquors, it behooves every one to scrutinize every brand, but, from the lack of
proper facilities, such precautions are often neglected. To supply such want we have caused
to be made close and critical examination and a searching chemical analysis, with the inten-
tion of printing the same, whether favorable or otherwise. The result, however, leaves us
but one thing to do, and that is to state, regarding the Brook Hill Whiskey, that purer or
better liquor has never been placed upon the market, and we recommend same to our readers
in unqualified terms and advise them to place an order, at least for a trial, as their product is
recommended by physicians as an aid to digestion, and is placed on our list of pure and
wholesome food supplies.

The Brook Hill Whiskey is also bottled
in bond, under the direct supervision of the
United States internal revenue department,
which is a guarantee of its absolute purity,
age and excellence. Sold by all the leading
drug stores, saloons and club rooms.

WEDNESDAY, MAR. 16, 1898

The court of inquiry at Havana is making a thorough job of its investigation.

Spain's propositions to Cuba for peace fails on deaf ears. The Cubans have had too much experience already with Spanish treachery.

The Legislature left forty bills on the Governor's table which are at his mercy. It is a safe prediction that many of them will never see daylight.

The Legislature has adjourned, and while it did not make many new laws, it has given the people of Kentucky plenty of food for serious thought.

Several Democratic candidates for Governor have discovered that their business will not permit them to make the canvass. The fact that Senator Goebel is the whole thing, may have had something to do with their conclusions.

Every now and then some criticism of President McKinley's course appears. These critics are so anxious for war that their judgment outstrips their valor. It is a most serious thing, declaring a war that may cost thousands of lives and hundreds of millions of dollars, and no one realizes it more than the President. He will not be swayed from his course by the complaints of penny-liner critics. And when the moment comes to strike for the honor of the Old Flag, and for the freedom of Cuba, the President will be found ready, and we imagine that his newspaper critics will also be ready—to stay at home.

LOUISVILLE'S WAY.

There are many ways to build up a city. But all the various ways resolve themselves into one, and that is by securing manufacturing plants or something else that will attract population. Such has been the cause of the growth of Paducah. The location here of the large railroad shops was a great impetus to the city's growth and is a great cause of the prevailing prosperity of the people of the city.

In these days, when there are hundreds of cities and towns that are looking for new plants, it becomes an absolute necessity for those places desiring additional factories to take some active steps to secure them. This is what the city of Louisville is doing. Thus the Commercial Club of that city recently made a request for the donation of factory sites, which free sites the Club could offer as an inducement to secure new factories. The first response is from a large company of a large tract of land valued at \$50,000 and fronting on the Louisville & Nashville railroad. Of course it goes without saying that the company hopes its remaining property will be greatly enhanced in value by the location in its neighborhood of new plants.

The plan followed in Louisville is in general the plan that should be followed here, with some modifications, perhaps. Thus this city should have, above all things, a commercial club. Let one hundred business men and property owners give twenty-five dollars a year to the maintenance of such a club. That amount would secure the services of a good man and pay the expenses of his correspondence. It would admit of a vast deal of advertising matter and enable the secretary of the club to do considerable traveling. The work of such a club ably conducted would secure to this city a large number of propositions from manufacturers seeking a new location.

The great natural advantages of Paducah are such that less inducements would have to be offered to get plants to come here than to almost any other city in the South. There are advantages that far outweigh a free site or a cash bonus. Such advantages are low freight rates, exemption from taxation for a limited period, and the subsiding of some of the capital stock by the citizens. We believe that Paducah has so many natural advantages that with the same amount of exertion she can secure new plants without having to put up a cash bonus or to give free sites. But, however, we should be prepared to donate sites to desirable plants that can be secured

by such action. We doubt not but that there are many land owners in this city who would be glad to do this, could a desirable factory be located adjoining their property.

In short, this city needs a commercial club, and it needs it very much. Factories may come here of their own accord, as indeed many have come in the past, notably so the Colanakis cordage factory, which will be one of the most valuable concerns in the city and to the city. But the very fact that such a large and important concern has come here, purely of its own accord, shows what could be done did we have a hustling commercial club that was out after new plants all the time.

This city has an energetic business men as can be found anywhere. We have but to refer to our immense wholesale trade and manufacturing business to demonstrate this fact. But we need concert of action, and this can only be secured through the medium of a live commercial club, with a live man at its head.

Y. M. C. A. RECEPTION.

Three Convancing Clubs to Be Organized With Good Leaders.

The members' reception at the Y. M. C. A. hall last night was well attended, forty or more being present. Music was furnished by Prof. Chas. Davis and impersonations by Mr. Matthew Carney.

Those present were invited into the gymnasium after the entertainment, and enjoyed a sumptuous repast provided by the ladies committee.

At a subsequent business meeting three convancing clubs were organized under the respective leadership of Messrs. D. M. Flournoy, C. P. Leigh and L. F. Wilcox. They will conduct a canvass for new members, and report at another meeting to be held on May 12.

THE NORTHWESTERN

Withdraws Its Agents From Kentucky—Mr. L. W. Robertson

Local Agent.

Mr. L. W. Robertson, the well known insurance man, is considering propositions from several insurance companies. Mr. Robertson's old company has withdrawn from Kentucky.

This was the Northwestern, and on account of a misunderstanding with the state insurance commissioner, it has withdrawn all its agents in Kentucky, and will solicit no more insurance here.

Mr. Robertson has been offered an Illinois agency in the same company, also a position with the Equitable. The withdrawal of the Northwestern will of course have no effect on the policy holders.

TO FIGHT FIRE.

Col. Polgaize Sells the Mayfield Council a Chemical Engine.

Col. Polgaize, of the Electrical Fire Extinguisher company, was in the city last evening en route to Chicago from Mayfield.

The recent fire has awakened the citizens of that place to the necessity of increased fire facilities, and Col. Polgaize went down to sell them a chemical engine.

Yesterday he closed the contract for a combination hose-reel and chemical engine, to cost \$1,600, and it will be delivered at once.

DIED OF CANCER.

Mr. E. G. Curd Passes Away at Mayfield.

Mr. Ed G. Curd, aged about 65, died last night at his home in Mayfield of cancer, after a lingering illness. He had suffered from cancer in the neck for many years.

The deceased was the father of Mr. Jesse Curd, of the city, who left on the "cannon ball" for Mayfield this morning to attend the funeral. The deceased leaves a family.

COLLINS MURDER CASE

Next on the Docket in the Benton Circuit Court.

The murder case against Enos Collins, charged with shooting Will Hampton at a barbecue near Hamlet, Marshall county, last summer, is set for tomorrow at Benton, and several witnesses here have been summoned to attend.

An Old Doctor's Favorite.
Dr. L. M. Gillam, who practiced medicine over forty years, originated, used and claimed that Botanic Blood Balm. (B. B. B.) which has now been in use about fifty-five years, was the best "Tonic and Blood Purifier" ever given to the world. It never fails to cure the most malignant ulcers, sores, rheumatism, neuralgia, and all skin and blood diseases. Beware of substitutes. Use this standard remedy. Price per large bottle, \$1.00.

AFTER SEVERAL DOCTORS FAILED.
I have been afflicted with Catarrh for many years, although all sorts of medicines and several doctors did their best to cure me. My blood was very impure, and nothing ever had any effect upon the disease until I used that great Botanic Remedy known as Botanic Blood Balm. (B. B. B.) a few bottles of which effected an entire cure. I recommend it to all who have catarrh. I refer to my merchant or banker of Athens, Ga., and will reply to inquiries.

POPE LEO TRYING TO PREVENT HOSTILITIES.

POPE LEO XIII.

London, March 15.—The Pall Mall Gazette yesterday afternoon published a dispatch from Rome, which says there has been a recent exchange of communications between the Vatican and Spain in regard to Cuba and the relations with the United States. The Pope, it is said, is ready to do everything in his power to prevent hostilities, "which might be fatal to the Spanish dynasty." Continuing the dispatch says:

"The Vatican has specially exerted influence at Washington and has tried, directly and indirectly, to dissuade the United States from plunging into war with Spain. According to information here, if the offices of the Pontiff are accepted he will propose that Cuba remain under the dominion of Spain, but that it be ruled on the lines of an English colony."

WARSHIPS BOUGHT

The Two Brazilian Cruisers Now United States Property—A Description of Them.

They Are Expected to Be Most Valuable Acquisitions to Uncle Sam's Navy—Large and Effective.

Washington, March 15.—A week's negotiations closed Monday by the triumphant purchase by the navy department in London of the two fine cruisers built and building at Elswick for the Brazilian government.

These two Brazilian vessels will be extremely useful additions to the United States navy in either war or peace in the opinion of Secretary Long, who acknowledges that they have been bought by the United States. They are steel sheathed and coppered, with twin screws, and will be the first of the cruisers in the American navy to embody that most useful feature of naval construction, sheathing, for which Chief Constructor Nicholson has worked earnestly for many years. He finally succeeded in having some of the smaller gunboats constructed on this principle. The Amazonas is rated at 3,500 tons displacement, with an indicated horsepower under natural draught of 7,000, which is calculated to develop twenty knots speed. Thus, while the ship is about the size of the Charleston, she is much faster. Her armament is also much more formidable; not so much in caliber, for the main battery is made up of six 6-inch guns, but these guns, as well as the four 7-inch guns, are of what is known as 50-caliber length, giving them an unusual range and power. In addition to this, they have ten 12-pounder quick firing guns, four 1-pounders, four Maxim machine guns, two boat or field guns. The torpedo tubes are three in number. The coal capacity is 850 tons, giving her an effective steaming radius of 8,000 knots, a most valuable feature, inasmuch as it would enable the ship to cross and recross the Atlantic without coaling. Such a vessel used as a commerce destroyer would be vastly more effective than what would appear to be more powerful craft, because of their ability to get along on long cruises without touching at neutral ports to coal and thus exposing themselves to capture.

The cruisers carry no armor in the ordinary sense, but their machinery is protected from the fire of guns by an arched steel deck just below the water line, varying in thickness from 1.2 to 3.5 inches. The battery has an unusual train, being arranged to fire three ahead and three astern of the principal guns.

Spurious Coins in Circulation.
Denver, Colo., March 15.—During the past two weeks the attention of the business men of the city has been attracted to the unusually large number of counterfeit silver dollars made of silver that are in circulation. The counterfeiters are such remarkably close imitations of the genuine coin that it is almost impossible to detect and even the government experts are frequently at a loss to choose between the false and the true.

At the mint it is stated that the situation is so serious that the treasury has made it the subject of a communication to congress, regarding the propriety of adopting a new device for the coin. It is estimated that there are fully two million dollars' worth of these spurious coins in circulation in the country. All that have been found bear the mark of the New Orleans mint, a lower case "O" immediately under the eagle and dated 1885.

A CHILDREN'S FRIEND.

Personality of Mr. Dodgson—Very Popular with Little Folks.

Anyone who reads the adventures of Alice in later years will appreciate the marvelous knowledge of child nature which Mr. Dodgson possessed. No doubt he started with a large share of that most valuable gift for understanding and sympathizing with the young; but though he has himself always remained a bachelor, his experience of children has been none the less extremely wide. In his fondness, among the university acquaintances, there was not a house which owned children, and particularly little girls, which he did not frequent, and where a warm welcome was not always ready for him. His appearance, generally at odd hours, and favored with that, to children, delightful element of the unexpected, was a signal for lessons to be discarded and for a general rush to the drawing room, with a happy disregard of unbrushed hair or soiled pinafores. The children knew perfectly well that this visitor came to see them, and that they were not to be seen, but heard. The parents also were acquainted in the meantime.

Mr. Dodgson was always admitted to be unlike other people, and his popularity with the children insured him perfect liberty to pursue the unconventional ways of his life. He had seldom been in the house three minutes before, with pencil and paper, he had embarked the elder of his young friends upon some elaborate puzzle or conundrum, while jokes of all sorts and weird fairy tales were reserved for the little ones who clustered around him. One of the greatest treats that the children could have was to go to tea with Mr. Dodgson, in his quaint rooms in the Tom Quad, at Christ Church, where games and entertainment without number were always ready for them, and where the hours passed only too quickly. Better still, perhaps, to be snatched from the dreary routine of a walk with nurse or governess, and borne off, regardless of resistance, on the part of these worthies, to the mysterious gloom of a half-darkened room, to be photographed. Mr. Dodgson was very eagerly a finisher of his work, and many little groups of boys and girls, faded now almost out of recognition, are still preserved as mementoes of these childish treats.—Westminster Gazette.

X-Rays and the Hair.
Dr. Berend announced at a recent medical meeting in Berlin that the falling out of the hair, observed so often after employment of the X-rays, is only temporary, and that therefore the rays are of no value for the removal of hair growing in abnormal places.

About the old story of the camel—how three philosophers heard about the animal and determined to investigate. The Englishman hunted through the folios of the British Museum, to find what had been said about the beast; the German went into his study, locked the door, lit his pipe and began to evolve a conception of the animal from his own consciousness; the Frenchman went down to Salarna to see.

PAIN'S CELERY COMPOUND.

WRITTEN AT RANDOM.

Dr. J. G. Brooks was perusing a paper from Hawaii yesterday when a reporter dropped in.

"I was just reading an account of the death of one of my old friends," observed the doctor, looking over his glasses.

"A man named Armstrong who went there in 1850. He was a very rich man. I am sorry to learn of his death."

"Do you know," resumed the doctor reflectively, "missionaries or their descendants rule those islands now?"

"President Dole is one, and so are most of the government officials. They are all rich, too. If you'll go there, you'll find that the richest people there—the men who own the biggest sugar plantations, the big guns of the whole place—are either missionaries or their offspring. I was always an advocate of missionary work until I went to Hawaii. Missionaries first went there in 1820."

"Soon after I got there I was told that the wife of one of the missionaries was afflicted with deafness, and was offered the opportunity of curing her. When I called at the house, I found it to be one of the finest there—a large mansion on the hill. There seemed to be servants everywhere. There were servants to open the door, servants to relieve you of your hat and cane, servants to carry up your card, and they all seemed to be of different nationality. The house was most magnificently furnished. Luxury was evident on every side, and I was astonished to think it was all the home of the humble missionary I had heard so much about. I don't know how he got it."

"I performed two operations and cured the old lady of her deafness. Her husband was away. He had gone to distant islands, as I afterwards learned to trade with the natives. He took a quantity of out-of-date buttons, some Dolly Varden calico, some hatchets and nails, and a few other valuables, to trade for corals and other precious products. When he returned with his newly acquired valuables, what do you suppose he was offered for the outlay? \$60,000! My eyes were considerably opened, but there was yet more to come. I soon presented him with a bill for \$50, for restoring his wife's hearing. He kicked like a bay steer, and showed the manner in which his being a missionary had educated him."

"I thought," he hesitated, "that you might have made it half price. You know we are accustomed to get everything at half price."

"It is half price," I replied, fully prepared for him, and a little mad at his avowal.

"Well, now couldn't you reduce that?" he tentatively resumed, "you know I have some influence with the natives." This significant remark had no effect, however. I made him pay the whole bill, and told him incidentally that it wouldn't be long until I had as much influence as he did. Of course this instance I have cited might have been only an exception, but it wasn't. I soon found that all the others were the same.

way, and now, as I say, they are virtually governing the island. I believe that all missionaries are the same."

"I have concluded, from experience and reading, that the modern missionary is largely a fraud, and that while he may be engaged in a laudable work, he's having a mighty good time all the while, doing it. It would pay a good many of our poor people to turn missionaries and live off the credulous beneficence of our Christian brethren on this side of the water."

While the doctor made no boast of it, he received after he returned to Kentucky, an officially sealed appointment, appended to which was the customary quantity of "red tape," as surgeon and physician to the sovereign of the island—which he declined.

"Johnny, for goodness sake, stop that dreadful racket!" exclaimed a distracted mother as a South Side youngster passed through the house for the seventh time the other day, ecstatically pounding a toy drum.

"You are enough to run every body off the earth!" she resumed. "Now you wouldn't want to do that, would you?" she added persuasively.

"Yesum," was the laconic reply. "Why, what would you do if you were to run every one off the earth?" asked the mother.

"Guess I could beat my drum all I wanted to then," he rejoined, as he proceeded to the coal house to finish his solo.

The big steamers that now land at the wharf are crowded with stylish excursionists. The season has begun, and will last until late in the fall, or until low water necessitates the suspension of the boats, if it should.

There is something attractive and captivating about a pretty excursionist, no difference whom she may be, and there are quite a number of young men who never fail to be at the wharf when the palatial steamers arrive, to "rubber neck" and admire—and flirt whenever they can find a girl who is "cut" enough.

Capt. Jimmie Owen hopes to see in the near future, that his lately discovered cave is one of the most popular summer resorts in this section of the country, although it is nevertheless already recognized as one of the prettiest spots in Kentucky, and has curiosities galore, as well as water that will probably prove as health giving as any at less attractive places. He is now preparing the cave for his hosts of summer visitors, and as soon as the season is well under way, will carry up a large excursion party.

Some of the young men who were indicted last December are now being arrested on bench warrants to answer at next month's term of court. It's better late than never, perhaps, but it will be "never" in some of the cases, quite likely. A young man arrested yesterday on a felony charge

knew before Christmas that an indictment had been returned against him, and had been afraid to contest the case, could have been in Cuba or the Red Sea by this time. Some one seems too much inclined to dilatory methods.

Mayfield is to have a legal hanging, if some of the people can wait long enough. What effect the novelty of a legal hanging will have is a matter that the people of Kentucky will no doubt watch with interest, but it is safe to wager that there won't be any rush for tickets to the execution. A legal hanging in daylight is entirely too tame for some Mayfield people. It all over now with the murderer, except the kicking. He doubtless wishes he had shared the fate of Dick Aiken, the burglar, for it would all be over by this time and he would be practicing with the celestial quartet; that is if he goes to heaven like all other men do who are hanged. And he would have had a good send off from at least 200 or more people besides, instead of from a paltry sheriff's posse with only a few spectators.

The following has been sent in by Dr. J. D. Smith, in regard to the chiseling of the battleship "Kentucky" with water:

"Every American citizen uses water and approves of its use. Only a portion of them use liquor or approve of its use. The battleship 'Kentucky' belongs to every American citizen alike, and hence modestly, if still remaining, should forbid the liquor using portion of the country from insisting on the use of an element in chiseling a battleship that represents only themselves."

Passengers on the Butterfield report that the only thing saved in the recent conflagration which destroyed Golden Pond, Trig county, was that a barrel of whiskey. The only reason it was not destroyed is probably because it wouldn't burn on account of the water in it.

COLORED DEPARTMENT.

A PASSING.
Many years ago, down in the old dominion state of Virginia, a little babe was born, and it grew, but it was not marked with unusual brilliancy and wisdom. Hard was his lot, and he could hardly look beyond the horizon of slavery.

Finally a better day dawned upon him. He was then a young man; he was now free, and not ashamed to struggle for the privileges which his ancestors never knew and only he now could know.

And so a great portion of his early life was spent in obscurity in preparation for the eventual avenues of his subsequent life. He was a believer in the philosophy of preparation, as opposed to the theory of inspiration; he knew that while others were enjoying that golden dawn of a new era—the passing from slavery to freedom—that if he would win, he must prepare. He knew that enthusiasm is a poor substitute for foresight.

And so when the opportunity came he was ready. His life was crowded with work. From the position of sergeant-at-arms in the state senate of Mississippi he went to the nation's capital as a United States senator. His name was Barack K. Bruce.

Now that mother earth is about to fold this tried child, her bosom and the flowers given by friendship and love are still fresh around him, we feel all the more deeply how much we have lost by this death.

Few and far between are the men of whom all speak well. It is hardly possible that any of us are born perfect, and we should keep this uppermost in the mind when criticizing the life of men. The flowers that dream above his casket are not more lovely than many a good deed that adorned his pathway through life; but, while the blossoms placed by love's hands on his grave will fade and disappear, his acts will shine imperishable in memory. They were sown in the garden of the heart, where neither time nor blight can dim their loveliness.

And so with the gentle spring this great man passes away—he has laid down the burden of life and been rewarded with the blessed words: "Well done, thou good and faithful servant."

The news of the burning of the great excursion boat Grand Republic was quite a shock to a number of the boys here who had spent many a summer evening on her decks.

"The Art of Living," is the subject upon which Prof. Hibbs will lecture Friday evening. He is the principal at the Garfield building and is well known to the people of this city to need no introduction; suffice to say that the subject is living one and will be presented in a living way by a very live gentleman. Every one must hear him at the Tremble Street Christian church on the evening of the 18th inst. at 8 o'clock sharp.

Mr. Louis Walker and wife desire to return their many thanks to the friends who so kindly assisted them in their late misfortune, in the loss of their child which was buried at Oak Grove yesterday afternoon. Also to Rev. J. W. Hawkins for his kind assistance.

Mrs. S. A. Shelden, of South Seventh street, went to Mayfield Monday to attend the funeral of her sister, from whose bedside she had just returned last week.

Launching of the Battleship Kentucky, March 21

All Kentuckians who can afford to go should be present at the launching of the famous battleship bearing the name of "Old Kentucky." It will be a great and interesting event. Reduced rates at the Hygeia and Chamberlain hotels will be granted, and as it is now the gay season at these popular resorts a short stay will be very delightful. Tickets will be sold for trains leaving Louisville at 8:30 a. m. and 4 p. m., March 22d. The rate from Paducah to Old Point and return is only \$18. Tickets good for seven days. Stop overs granted at Richmond, Va. For particulars call on J. T. Dumou, C. A. I. C. R. R.

Sleeping car rates will be \$1 for single berth and \$8 for section from Louisville. For reservations address at once R. E. Parsons, D. P. A., C. & O. Ry., Louisville, Ky.

Sam Givens has opened a repair shop at the corner of Sixth and Trimble streets, where he does all kinds of repair work on gas and gasoline stoves.

Another Good Performance.
There was another large and well pleased audience on last night to enjoy the second performance of the Murray Comedy company, at Morton's opera house. The play was excellent, while the specialties were up-to-date and of the best. Tonight there will be another large crowd, as the company is winning deserved popularity.

On a Bench Warrant.
Sam Holland, a well-known young man of the city, was committed to jail yesterday by Sheriff Rogers on a bench warrant. He was indicted by the last grand jury on a charge of setting up a game at a North Side saloon. He will probably execute bond. Holland knew last December that he had been indicted, and made no effort to escape, claiming that he is innocent.

A MAYFIELD MARRIAGE.

Miss Myrtle Thomas and Mr. Charles Legg to Wed.

The Ceremony Will Be Performed To Night at the Bride's Home.

Miss Myrtle Thomas, a pretty and popular young lady of Mayfield, and Mr. Charles Legg, a prominent young merchant of the same place, will be united in marriage tonight at the home of the bride's parents in Mayfield.

This wedding will be the culmination of a happy courtship, and will link the destinies of two most worthy young people, both of whom have many friends and admirers.

Miss Thomas has often visited in Paducah, and was only a short time ago a guest of Mrs. Chas. R. Brown, her sister, who left this afternoon for Mayfield to attend the wedding. Mr. Legg is in the dry goods business in Mayfield, but was formerly of Murray. He is an industrious young man of much promise.

The wedding will be a quiet, home affair, only a few friends being present.

POLICE COURT.

A Fulton Darkey Gets Caught On the Blind Baggage.

Had a Gun—Other Police Court News.

Charles Gray, a Fulton negro, who is employed in a hotel there, and who once worked here, was arrested on North Ninth street aboard the east bound "cannon ball" this morning, while stealing a file on the "blind baggage." Gray was seen to remove a pistol from his hip pocket and place it in his overcoat. He was this morning presented in the police court on the charge of carrying concealed a deadly weapon, and was fined \$25 and ten days in jail.

The false swearing case against Len Moss and Robert Carson was continued until tomorrow.

Bill Henderson, colored, was fined \$2 and costs for a breach of the peace. He was charged with striking Thomas Montjoy, a colored boy, who swore Henderson struck him, while Henderson swore he did not.

George Francis and Fred Miller, two steamboatmen, were fined \$1 and costs for drunkenness, and were doubtless glad to get off so light. One held so tightly to the fence that half of it was torn down by officer Atkins in his efforts to get the prisoners to the lockup.

The case against Osear Davidson, the young man charged with stealing a skiff at Danville, Tenn., was called and again continued until tomorrow. The defendant, it is understood, is willing to return to Tennessee, but his attorney is not. The authorities will likely hold him until a requisition arrives.

HEAVY RAIN.

A Thunder Storm Passes Over Paducah.

The Rainfall Was Only .7 of an Inch, However—High Creeks.

A thunder storm swept over the city early this morning, lasting from 5 o'clock until after 6.

The rain fell in torrents, and was accompanied by vivid lightning and tremendous claps of thunder. A great many citizens no doubt imagined that there was much more rain than really fell, as there was only .7 of an inch.

A great many of the creeks in the county have been greatly swollen by the recent rains, doing considerable damage. A narrow gauge canal to say that he never knew it, is so high. One, the Gum Spring creek, was higher than ever known before, and washed away fences that were believed to be far out of its reach. No serious damage is reported from the flood.

SHILOH REUNION.

No Arrangements This Year Made For One.

It Cannot Be Ascertained Whether One Will Be Held or Not.

Although the date is not far off for the Shiloh reunion, nothing has been said this year about the commemoration of the great battle.

It is not known whether there will be a reunion or not, April 6th and 7th being the days of reunion.

Usually, however, the reunion is combined with Decoration day, May 30th, and both are celebrated at the same time.

Mr. Charles Lofland, who is always a spirit in Shiloh reunions, is as much in the dark this year as anyone else.

The splendid bargains that have been offered yesterday and today at our Birthday Sale, will be repeated at our special sale Saturday of this week.
NORMAN ALEX.

HUNTLEY'S MAN DIES.

The Special Agent's Latest Victim Reported Dead.

Nothing definite has been heard from Special Agent C. W. Huntley since the announcement of his having to shoot a man named Farley a day or two ago. It was reliably reported today, however, that Farley was dead.

It is generally conceded that he was perfectly justifiable in his deed. The man was drunk; entered the special agent's room and drawing a pistol threatened to kill him, but before he could shoot, was brought down by the agent.

Confirmation of Farley's death reached the city today over the dispatchers' wire. At last accounts Mr. Huntley had not been re-arrested.

810 GIVEN AWAY

At Morton's Opera House Saturday Night.

Every person attending the performance of the Murray Comedy company at the opera house this week will be given a number which will entitle them to a chance in the drawing for \$10 in gold at the opera house Saturday night. Numbers will be given out every night, and the person holding them must be in the house to be entitled to the prize. Admission only 10, 20 and 30 cents. Seats can be secured at Van Culin's.

SAVE MONEY BY HOME DYEING

Easy Way to Make New Spring Gowns Out of Old, Faded Suits.

Diamond Dyes Make Beautiful and Brilliant Colors Which Will Not Fade—So Simple That Even a Child Can Use Them Successfully—For Twenty Years the Standard Home Dyes.

Don't wear a faded gown. Don't look shabby simply because you cannot afford to buy a new dress. It is not necessary to wear clothing that is faded and shabby because you have no money to buy more. With one or two packages of Diamond Dyes that cost only ten cents, the old dress can be dyed a fashionable and beautiful color and made to look like new. Thousands of women will have spring dresses this year that cannot be told from new, but which have cost them only a trifle, the result of coloring over their old materials with Diamond Dyes.

Diamond Dyes are so simple and easy to use that even a child can, by following their plain directions, get fast and beautiful colors. They do not fade, crack, or wash out, and are the only package dyes that have stood the test of years of use. Do not risk your goods with imitations of the Diamond.

The Jacob Heatherington arrived out of the Tennessee river this morning.

The Reuben Dunbar is due to pass out of the Cumberland river tonight bound for Evansville.

The City of Clarksville is due here this afternoon from Elizabethtown and leaves on her return tomorrow at noon.

The Mary Michael with three big model barges in tow loaded with crosses left this morning for St. Louis.

There was very little business done on about the wharf this morning, owing to there being only three packets in and out.

The H. W. Butteroff with an immense cargo of freight, besides a full crew of passengers, left today at noon for Nashville.

The Cairo liner Dick Fowler was out for Cairo at 8:30, doing very good freight business.

The towboat Jacob Heatherington, is due out of the Tennessee river from Paducah, Ala., with a tow of ties.

The Grey Eagle left this morning for St. Louis, after wintering here. She has been newly painted which improves her appearance considerably.

Big water is expected and from all appearance it seems probable the river at this point is descending the banks at a lively rate—rising something like two feet last night. The gauge registered 17.3 this morning.
